## Summary

Computer science engineering student at the Higher School of Computer Science in Sidi Bel Abbes, working toward an engineering diploma. Full-stack developer with experience in building real-time applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in backend development, database management, and creating seamless, responsive user interfaces. Passionate about designing efficient, interactive web solutions and always eager to take on challenging projects and explore new technologies to optimize development processes.

## Work Experience

**Higher School of Computer Science (ESI-SBA) and ALNAFT**                    *Sidi Bel Abbes, Algeria*

MULTIDISCIPLINARY PROJECT AND INTERNSHIP EXPERIENCE                              *2023 - Present*

- Led a multidisciplinary project titled "MagFlow," a comprehensive store management system developed in the 2023/2024 academic season, enhancing skills in project planning and full-stack development.
- Completed a discovery internship at the National Agency for the Valorization of Hydrocarbon Resources (ALNAFT) in September 2024, gaining exposure to all sub-departments within the computer science division.
- Worked on various personal projects, building proficiency in software development and problem-solving.

## Technical Skills

| | |
|---:|:---|
| **Strongest Areas** | Full-stack Development, Real-Time Applications |
| **Programming Languages** | JavaScript, Python, Java |
| **Libraries/Frameworks** | Node.js, Express.js, React.js, Next.js |
| **Database** | MongoDB, MySQL, PostgreSQL |
| **Version Control** | Git, GitHub |

## Education

**Higher School of Computer Science (ESI-SBA)**                    *Sidi Bel Abbes, Algeria*

ENGINEERING DEGREE AND MASTER'S IN COMPUTER SCIENCE                              *Sept. 2021 - Present*

- Currently pursuing an Engineering Degree and Master 2 in Computer Science, with a focus on advanced software development and systems engineering.

## Extracurricular Activity

**Alphabit Club**                    *Sidi Bel Abbes, Algeria*

CORE MEMBER & LEADERSHIP ROLES                              *2021 - Present*

- Served as Finance Member (2021-2022) and Finance Team Leader (2022-2023), where I led the financial planning and helped organize events such as a startup weekend, Alphactf, and a coding challenge.
- Held the role of President (2023-2024), overseeing major club events and initiatives, such as organizing AlphaCTF and Coscape, and achieving significant growth and success for the club.
- Currently a member of the development department, contributing to ongoing projects and supporting club activities.
